# MISSION TIMELINE

REF: USSF-CHRONO-2121-001 // COMPILED FROM OPERATIONAL LOGS

2087	TREATY	International Accord established – lunar mining treaty framework
2098	COMBAT	Battle of Promethei Terra, Mars. CPT Daniel wounded; LT Ramsey KIA
2118	CRISIS	West Texas drought. ZPE generator deployed to Daniel ranch
2121 JUN 09	DAY ZERO	Novel opens. Col. Daniel recalled to Fort Bliss
2121 JUN	SUMMIT	Geneva Summit. Battle of Orbital Platform Alpha
2121 JUN	EXCHANGE	Nuclear exchange – 11 minutes. Global grid collapse
2121 JUN	CASUALTY	Clara Daniel KIA – Austin, TX. Knox & Luna recovered
2121 JUN-JUL	EXODUS	Brownsville spaceport evacuation. 10,000 colonists. Odyssey launches
2121 JUL	TRANSIT	Three-week wormhole transit. 14-second blackout. Containment drift
2121 AUG	ARRIVAL	Lupus Stella orbit. Cryo revival. Colony established on plateau
2121-2122	COLONY	Camp construction. First contact: Shadowfangs, Prismhoof sighting
2122	THREAT	Ruins discovered. Devourers detected in orbit. Signal from far continent

CLASSIFICATION: RESTRICTED - UNITED STATES SPACE FORCE

## PERSONNEL FILES

REF: USSF-PERS-2121-001 // DOSSIERS 1-4 OF 8

### THEO DANIEL

COL, USSF (Ret.)

ACTIVE

AGE: 45

Cybernetic left arm (CX7-4419-DELTA). Former ranch owner, San Antonio TX. Guardian of Knox and Luna Daniel. Carries Jake Ramsey's star medallion.

### JAKE RAMSEY

LT, Delta-7 Squad

KIA

AGE: -

Died at Promethei Terra, 2098. Threw himself on grenade to save Reyes and Patel. Foundational trauma. Brother figure to Theo.

### CLARA DANIEL

Civilian - Teacher

KIA

AGE: 38

Elementary school teacher, Austin TX. Mother of Knox and Luna. Died sheltering children during nuclear exchange. Body found curled over students.

### KNOX DANIEL

Civilian - Minor

ACTIVE

AGE: 11

Clara's son. Brown eyes, Theo's jaw. Studies systems, maps logistics, reads emergency manuals. Carries weight beyond his years silently.

CLASSIFICATION: RESTRICTED - UNITED STATES SPACE FORCE

## PERSONNEL FILES

REF: USSF-PERS-2121-002 // DOSSIERS 5-8 OF 8

**LUNA DANIEL** Civilian - Minor

ACTIVE

AGE: 9

Clara's daughter. Dark hair, Clara's eyes. Connected to alien biosphere - ferns pulse at her touch. Sees Prismhoof. Says 'they like me.'

**DANIELLA RUIZ** LT, USSF

ACTIVE

AGE: 25

West Texas ranch background. Family lost in 2118 drought. De facto guardian for Knox and Luna. Quiet romance thread with Theo (unspoken).

**GENERAL CLARK** GEN, USSF

KIA

AGE: -

Theo's commanding officer. Stayed behind at Brownsville spaceport evacuation - refused to board. Sacrificed himself. Old soldier's farewell.

**DR. ELENA THORNHILL** Civilian - Physicist

ACTIVE

AGE: -

Chief engineer, orbital ZPE program. Russian heritage. Designed containment frequency modulation. Discovers signal running backward. Leads ruins translation.

CLASSIFICATION: RESTRICTED – UNITED STATES SPACE FORCE

## TECHNOLOGY BRIEFING

REF: USSF-TECH-2121-001 // OPERATIONAL SYSTEMS OVERVIEW

### ZPE GENERATORS

ZERO-POINT ENERGY – QUANTUM VACUUM EXTRACTION

Extract energy from quantum vacuum fluctuations. Backbone of 2121 civilization. Three railcar-sized cylinders aboard Odyssey. Create containment fields. Their operation tears holes in spacetime – this is what attracts the Devourers. Retrofit modulation collar designed from alien ruins schematics to flatten energy signature.

STATUS: OPERATIONAL – RETROFIT IN PROGRESS

### CYBERNETIC PROSTHETIC

SERIAL: CX7-4419-DELTA // GHOST: TXD-7741-KAPPA

Col. Daniel's left arm. Carbon nanotube and synthetic muscle construction. Neural interface with wrist holographic display. Combat targeting overlay with ocular implant integration. Contains hidden tertiary relay cluster. Exhibits autonomous behavior exceeding manufacturer specifications.

STATUS: ANOMALOUS – UNDER OBSERVATION

### THE ODYSSEY

COLONY SHIP – CAPACITY: 10,000 COLONISTS

Wormhole transit array. Cryogenic suspension bays. Fabrication units, seed stock, medical facilities, hydroponics. Three ZPE generators. Shield generators. One of twelve global ark ships launched during the Exodus.

STATUS: LANDED – ORBIT CAPABLE

### WORMHOLE TRANSIT

SPACETIME PASSAGE – WOLF 1061 SYSTEM

Opens passage through spacetime. 14-second instrument blackout during crossing. Time behaves strangely – clocks disagree. Three-week transit duration. Waveform runs backward after passage. Containment drift detected.

STATUS: PASSAGE COMPLETE – ANOMALIES LOGGED

CLASSIFICATION: RESTRICTED – UNITED STATES SPACE FORCE

# XENO BIOLOGY REPORT

REF: USSF-XENO-2121-001 // FIELD OBSERVATIONS – LUPUS STELLA

## SHADOWFANGS

THREAT LEVEL: HIGH

Low-slung quadrupeds, wet slate coloration. Copper eyeshine. Silent movement. Hunt in coordinated packs. Adapt to turret positions and patrol schedules. Memory implies continuity of purpose. Serve as infantry in coordinated attacks with Dreadmaws. Controlled by distributed intelligence.

## DREAMMAW

THREAT LEVEL: CRITICAL

Massive armored beast. Jaw hinged like a snake's. Flat crushing teeth. Armored plates with vulnerable joints. Used as battering ram. Targets ZPE generators specifically – attacks the signal. Dark blood (almost black).

## PRISMHOOF

THREAT LEVEL: UNKNOWN

Tall, translucent creature with prismatic light effects. Appears at colony edge. Luna Daniel is the primary observer. Peaceful/mysterious. Not hostile. Connection to planetary intelligence unconfirmed.

## LUMINA FERNS

THREAT LEVEL: NONE

Bioluminescent undergrowth. Blue-green glow. Respond to Luna Daniel's touch – pulse in sequence following her fingertips. Part of planetary biosphere intelligence network. Possible communication medium.

## THE DEVOURERS

THREAT LEVEL:

Cosmic threat. Track ZPE energy signatures across interstellar distances. Destroyed the prior alien civilization. 'Not a story told by a dead civilization to frighten its children. They had been a schedule. And the schedule had been kept.' Now detected in orbit.

CLASSIFICATION: RESTRICTED – UNITED STATES SPACE FORCE

# PLANETARY SURVEY – LUPUS STELLA

REF: USSF-GEO-2121-001 // ORBITAL AND SURFACE RECONNAISSANCE

## SYSTEM

Wolf 1061 (Red Dwarf)

## OCEAN COLOR

Dark Crimson

## DESIGNATION

Lupus Stella

## ATMOSPHERE

Breathable (human-safe)

## DISTANCE

~14 light-years from Sol

## MOONS

None visible

## GRAVITY

1.15g (Earth standard)

## WEATHER

Warm rain – frequent

## DAY LENGTH

28 hours

## COLONY SITE

Stone plateau (elevated)

## STELLAR CLASS

M-type Red Dwarf

## STATUS

Colonized – 10,000 souls

## FIELD NOTES

Dominant flora: Obsidian Titans (massive trees, bark like cooled magma, cathedral-like canopy)

Bioluminescent undergrowth (Lumina Ferns) responds to human proximity

Clicking patterns detected in forest: 3-2-3-2 sequence – origin unknown

Twelve emission sources detected in lattice pattern across surface

Same frequency signature as containment drift during wormhole transit

Geometric spiral patterns reported in colonist dreams – widespread

Ridge-7 colony (Commander Hale) – established 4 months prior, south of main site

Underground alien ruins discovered: dark alloy slab, 40m deep chamber, floating orbs

CLASSIFICATION: RESTRICTED - UNITED STATES SPACE FORCE

CLASSIFICATION UPGRADED - TOP SECRET / SCI
